Art Unit 1752

1. The non-statutory double patenting rejection, whether of the obvious-type or non-obvious-type, is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent. In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); In re Van Ornam, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); and In re Goodman, 29 USPQ 2d 2010 (Fed. Cir. 1993).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321 (b) and (c) may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78 (d).

Effective January 1, 1994, a registered attorney or agent of record may sign a Terminal Disclaimer. A Terminal Disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-20 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of copending application Serial No. 10/712,389; claims 1-17 of copending Application No. 10/706,340; claims 1-19 of copending Application No. 10/706,574 and claims 1-20 of copending Application No. 10/706,667. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the instant application and those of the copending applications are essentially the same except for the speeds of the silver halide elements, screens and/or systems having different ranges. However, the ranges overlap.

Art Unit 1752

-3-

This is a *provisional* obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

- 2. The prior art submitted by applicants has been considered. Dickerson et al. '554 is cited of interest in the art as disclosing radiographic film comprising two tabular silver halide grains on each side of a support wherein the sizes of the tabular grains are different from those required by the instant claims.
- 3. Any inquiry concerning this communication should be directed to Mr. Schilling at telephone number (571) 272-1335.
